This is a translation of an easy-to-read version of the original Swedish text. If there are nuances of meaning in the versions, the original Swedish version takes precedence.

Socialdemokraterna

**A STRONGER
SOCIETY.
A MORE SECURE
SWEDEN.**

VOTE FOR A STRONGER SOCIETY AND A MORE SECURE SWEDEN!

I know what security can mean to a person.

From growing up in foster care, from the many unemployed people I met during my time in industry, from the many elderly people I meet today as Prime Minister, this I know: security is always needed if we are to feel happy and free.

Today, the Swedish economy is very strong.

Since 2014, 300,000 more people have a job to go to. Youth unemployment is at its lowest level for 16 years. We have introduced a sustainable migration policy and reduced welfare dependency to its lowest level since 1981.

We want to use this strength to implement the largest social security programme in modern times.

Our goal is a stronger society. A society that has the energy to employ more teachers and nurses, and to ensure that old age does not mean poverty. That has the strength to fight crime without compromise. That ensures that everyone who is able to work does so. That is there for you when you need support but that also makes demands. That has the drive to deal with segregation at its roots, so that our Sweden remains united.

However, the choice is yours. There are those who would prefer to see more market-led solutions in our schools and hospitals. Who would like to use our money to once again greatly reduce taxes for those who already have most, while ordinary people pay the price through reduced welfare.

So, my call is simple: Join us in creating a stronger society and a more secure Sweden. Vote for the Social Democratic Party 9:th of September!

Stefan Löfven

THE LARGEST SOCIAL SECURITY PROGRAMME IN MODERN TIMES

SECURITY THROUGH STRONGER WELFARE

We want to:

Employ more healthcare staff. We will employ 14.000 more staff in healthcare in order to relieve the burden on personnel, reduce queues and provide quicker care.

Halt the pursuit of profits in the welfare sector. We will introduce a profit ceiling and regulations to ensure that money intended for welfare goes to welfare. We will also prohibit religious free schools.

Increased pensions. Those who have worked all their lives in low-wage jobs will see their pensions increased through a supplement to the national retirement pension, and we will take the final step towards entirely abolishing the unjust pension tax.

SECURITY THROUGH STRONG ACTION AGAINST CRIME

We want to:

Employ more police officers. We will employ 10,000 more police staff by 2024, in order to solve more crime and create security on our streets and public spaces.

Halt violence against women. We will combat men's violence against women, honour-related violence, prostitution and human trafficking.

Prevent young people from falling into criminality. We will conduct a policy that attacks criminality at its roots by reducing social inequality and fighting injustice, through early intervention and more routes out of criminality.

SECURITY THROUGH FASTER INTEGRATION

We want to:

Make sure that everyone is in work, irrespective of gender or place of origin. We stand for good working conditions and fair wages. Through major investments in education, we will create opportunities for everyone to work. At the same time, we will make it completely clear that the route to integration into Swedish society is through self-sufficiency.

Stop the forces of segregation. We will fight all forms of political militant political and religious extremism.

Introduce a language requirement. Everyone who is unable to find work due to their inability to speak Swedish must learn the language.
